

CONGRESSMAN DAVID G. VALADAO

# THE AMERICAN HEALTH CARE ACT

REPAIRING OUR HEALTH CARE SYSTEM

**OBAMACARE**

**AMERICAN HEALTH CARE ACT**

**INCREASED COSTS**

Helps Americans afford health insurance by providing monthly health care vouchers, between \$2,000 and \$14,000 a year, to low and middle income individuals and families

**LIMITED ACCESS**

Ensures no one can be denied coverage because of a pre-existing condition and allows young adults to stay on their parents' policies until the age of 26

**REDUCED CHOICE**

Eliminates costly mandates and expands Health Savings Accounts so patients can spend their health care dollars in ways that fit their specific needs

**CUT COMPETITION**

Eliminates bureaucracy and encourages insurance companies to compete against each other to offer the most affordable, highest quality options possible

**JEOPARDIZED MEDICAID**

Protects the poor and most vulnerable by strengthening Medicaid and giving states greater flexibility to serve those most in need

**RAISED TAXES**

Dismantles the taxes that have hurt job creators and increased premiums; including taxes on prescription drugs, over-the counter medications, premiums, and medical devices
